ROSSO TOSCANA IGT

2024

GRAPES

Sangiovese and other local red grapes

PRODUCTION AREA

The hilly areas of Vinci and neighboring municipalities

VINTAGE

The vintage was characterized by a rainy spring, which provided essential water reserves in the soil. Summer was cool and free from water stress for the vines, thanks to the moisture accumulated during the previous months. A sunny and breezy September ensured a slow and optimal ripening of the grapes, preserving their freshness, acidity, and aromatic intensity

Leonardo da Vinci is a painter, a scientist, and also a wine expert—a *wine lover*, as we would say today. Leonardo has an agricultural soul: he was born into a family of winegrowers in the small village of Vinci in Tuscany, and wine is part of his daily life. In fact, his genius is also expressed in wine: through his writings, Leonardo can be considered the first agronomist, oenologist, and sommelier in history. The Tuscan winery Leonardo da Vinci was founded in 1961, when thirty growers decided to join forces in Vinci to vinify the local grapes into quality wines. From just a few initial hectares, the cooperative has grown: inspired by Leonardo's genius, the winery blends art, science, and nature, enhancing Italy's winemaking tradition.
